Follow-up Appointments

1. **GP review** within **7 days** of discharge — patient to arrange (by 25 Sep 2026).
2. **Cardiology outpatient clinic** — 09 October 2026 at 10:30, Riverside General Hospital, Clinic 4. Appointment already booked; letter to follow.
3. **Chest X-ray** — to be arranged in 6 weeks to confirm resolution of pneumonia.

Recovery Tasks & Monitoring

- Check and record temperature **twice daily** (morning and evening) for 7 days.
- Weigh yourself **every morning**; record the weight. Report a gain of more than 2 kg in 3 days.
- Check blood glucose before breakfast and before the evening meal.
- Take short walks daily as tolerated; gradually increase activity.

Restrictions

- Do **not** drive for at least **7 days** and until reviewed by your GP.
- Avoid heavy lifting (over 5 kg) for 2 weeks.
- Limit salt intake; limit fluids to 1.5 litres per day.

Warning Signs — Seek Urgent Help

Contact your GP or call 111 if you notice: worsening or persistent fever above 38.5°C, increasing cough or green/bloody sputum, or swelling of the ankles or legs.

Call 999 immediately if you experience: severe or worsening breathlessness, chest pain, confusion, or blue lips or fingertips.
