Admitted:	Monday 12 October 2026 (planned)	**Discharged:**	Friday 16 October 2026
Length of stay:	4 days	**Discharged to:**	Home, lives with her husband
Consultant:	Mr R. Sample, Consultant Orthopaedic Surgeon	**Allergies:**	**No known drug allergies**

DIAGNOSIS

Primary osteoarthritis of the right knee.

PROCEDURE

Right total knee replacement on Monday 12 October 2026. The operation went as planned. No complications.

HOSPITAL STAY

Walked with the physiotherapist on the first day after surgery, using a walking frame. Pain controlled with tablets. Blood tests after surgery were stable. The wound was clean and dry on the day of discharge. Margaret is safe to go home and manage the stairs with one rail.

MEDICINES TO TAKE AT HOME

Medicine	How to take it	Status
1. Paracetamol 500 mg tablets.	Take 2 tablets four times a day (morning, midday, evening, bedtime) for 14 days. Take the morning dose after breakfast.	New
2. Codeine 30 mg tablets.	Take 1 tablet up to four times a day, only if needed for pain. Stop after 5 days.	New
3. Apixaban 2.5 mg tablets.	Take 1 tablet twice a day (morning and evening). Take the morning dose after breakfast. Continue as directed.	New
4. Senna 7.5 mg tablets.	Take 2 tablets at bedtime if constipated.	New

Usual medicines before admission: none. All medicines above were given to you by the hospital pharmacy.

DAILY ACTIVITIES

- Knee exercises from your physiotherapy sheet: three times a day (morning, afternoon, evening).
- Walking: one short walk of 5 to 10 minutes, twice a day, using your walking frame. Times agreed with you on the ward: 7:30 am, before breakfast, and 3:00 pm.
- Ice pack on the knee for 20 minutes after each set of exercises.
- Rest with your leg raised between activities.

DIET

- Eat plenty of fibre, such as fruit, vegetables and wholegrain bread, to help prevent constipation from your pain medicine.
- Drink 6 to 8 glasses of water or other fluids a day.
- Do not drink alcohol while you are taking codeine.

WOUND CARE

- Keep the dressing clean and dry. Do not remove it yourself.
- Your wound clips will be removed on Monday 26 October 2026.

RESTRICTIONS

- Do not drive until your consultant has reviewed you at your 6-week appointment and told you it is safe.
- Do not kneel on the operated knee.
- Do not have a bath or go swimming until the wound has healed. Showering is fine if the dressing stays dry.

EQUIPMENT PROVIDED

Walking frame and raised toilet seat, delivered to your home on Thursday 15 October 2026 by the community equipment service.
